

Kris A. DiNucci, D.P.M., F.A.C.F.A.S.

September 4, 2020

Foot & Ankle
Center of Arizona

I don't usually write reviews, but I felt like this was too important not to share. I've been a patient of Dr. DiNucci for many years for minor things, but when I consulted with him a year ago for severe and debilitating ankle pain, what happened next is nothing short of a miracle. I was in an accident many years ago and as a result, I developed pretty severe arthritis in my ankle joint. I was facing the possibility of an ankle replacement, which would have been a very long recovery and about as invasive as it gets. He suggested a series of (3) "stem cell" injections into the joint over a 6 week period. I decided to give it a try. I can't begin to tell you the extraordinary results that I experienced with this treatment. I was in and out of the office in 15 minutes with each treatment and there were no side effects, pain or limitations post injection. Within a month I was pretty close to "pain free". I returned a year later for a "booster", which even gave me more relief. I didn't know I could feel any better, but I do! I have a very physical job as an RN in the operating room and I am on my feet for 8-10 hours a day. This treatment allowed me to continue to do what I love without any change to my lifestyle.

I cannot say enough about Dr. DiNucci....he is skilled, gifted and genuinely cares about his patients. His office staff is awesome from the front office to the back office. I was always greeted with a smile and everyone was friendly and accommodating. As a nurse, I'm pretty selective about who I choose to care for me personally. I refer everyone to Dr. DiNucci and they've all been just as happy! Thank you to Dr. DiNucci and your entire staff....you've changed my life!
